## Myths & facts, from page 3 for military retirees.”

**FACT:** Just as the Affordable Health Care for America Act fully protects the current VA health care and Tricare systems, it also fully protects the Tricare For Life program. — There is a chain e-mail currently going around the Internet that states that the efforts of the Obama Administration and Congressional Democrats on health insurance reform will result in undermining the benefits in the Tricare For Life program for military retirees. Once again, these charges are not true. (The Tricare For Life program was introduced in 2002 as a supplement to Medicare for military retirees. It covers many medical costs not covered by Medicare.) Just as the Affordable Health Care for America Act does nothing to affect the Tricare program, it also has no provisions that affect the Tricare For Life program. The health care benefits of military retirees are fully protected.
